

## First Baptism of Blood On Cuban Soil.

New Mexico Volunteers in Battle--Enemy, Although in Strong Force, Compelled to Retire--American Loss 60 Officers and Men--List of Dead and Wounded.

Washington, June 25.—First dispatch from General Shafter, concerning the engagement between the Spanish and American forces, reached the War department today as follows:

Plaza del Este, June 25.—Adjutant General U. S. Army, Washington.—Baqueiro, June 24.—Further news from General Wheeler places our loss in this morning's fighting at about 10 killed and 40 wounded. Captain Capron, 1st U. S. volunteer cavalry, killed.

Wounded: Major Brodie, Captain McClintock and Lieutenant Thomas, 1st U. S. volunteer cavalry. Major Bell, Captain Knox and Lieutenant Byram, 1st U. S. regular cavalry. Captain Knox is seriously wounded. Captain Walworth, formerly reported wounded, is uninjured.

The names of the others killed and wounded are not yet known. The Spanish forces occupied a very strong and entrenched position on a high hill. The fighting lasted about an hour. The enemy was driven from its position, which is now occupied by our troops, about a mile and a half from Sevilla. The enemy retired toward Santiago de Cuba. Signed: Shafter.

Off Juraguá, June 24.—Friday morning.—Four troops of the 1st cavalry; four troops of the 10th cavalry and eight troops of Roosevelt's "Rough Riders," numbering less than 1,000 men in all, attacked 2,000 Spanish soldiers in the thickets within five miles of Santiago. The Americans beat the enemy back into the city, but left the following dead upon the field.

"Rough Riders"—Captain Allyn K. Capron, Sergeant Hamilton Fish, Jr.; Privates Tillman and Dawson, troop L; Private Dougherty, troop F; Private W. T. Erwin, troop E.

First Cavalry—Privates Dix, York, Bjork, Kolbe, Berlin, Lennox. Tenth Cavalry—Corporal White. At least 50 Americans were wounded.

including six officers. Twelve dead Spaniards were found after the fight but their loss was doubtless in excess of that. General Young commanded the expedition and Colonel Wood directed the operations of the "Rough Riders" several miles west. The fight lasted an hour and the Spaniards were scattered. The officers of the "Rough Riders" wounded are: Major Brodie, shot through the right forearm; Captain McClintock, troop B, shot through the right leg; Lieutenant A. R. Thomas, troop L, shot through the right leg, condition serious. The other officers wounded are: Captain Knox, condition serious; Major Bell, and Lieutenant Byram. These are all of the 1st cavalry. List of the wounded soldiers, some of whom will probably die.

Milwaukee—Clifford Reed, of troop E, "Rough Riders," wounded in yesterday's battle, near Santiago, is the 21 year old son of E. A. Reed, a business man of this city. Young Reed is a graduate of the high school in this city. He left for New Mexico about four months ago, where he joined Roosevelt's "Rough Riders."

Francis Short on Cabinet Material.—Paris, June 25.—President Faure has invited Henri Brisson to form a new cabinet.

In consequence of W. Peytral's friends insisting that a Radical Socialist must be given one of the portfolios, M. Dupuy, M. Lueyges, and M. de Lombré declined to enter such a cabinet. M. Peytral therefore abandoned the task of forming a cabinet.

Severe Storm in Illinois.—Algonquin, Ill., June 25.—The severest storm in this vicinity for 16 years

has swept over Algonquin, finishing today. The railroad on both sides of the town was washed out, and the place will be cut off by rail from the outside world for several days. Algonquin is situated on the Fox river between the Ranges bluffs. The river rose 12 feet. There were a number of narrow escapes from drowning. The Dodd boys rescued two men locked in death's embrace, as they were going down the last time.

Madrid Says That United States Has Suggested That Peace Can Be Secured Under Certain Conditions.

Madrid, June 25.—It is reported that the peace conditions suggested by the United States include the possession of Porto Rico, the independence of Cuba, an American protectorate and naval station in the Philippines, and a coal depot in the Canary Islands.

NO BASIS FOR IT.

Simply Another Spanish Pipe Story.—Washington, June 25.—The announcement from Madrid that the United States suggested peace conditions with Spain is regarded as a "feeler" set afloat with the distinct purpose of deepening the state of public feeling in America as well as in Europe. There is no basis of fact for the report, for at the State department it met unqualified denial.

TRAIN ROBBERS CAUGHT.

Bloodhounds Tracked the Outlaws Who Were Arrested—Engineer Killed.

Whitehall, Ill., June 25.—Frank Ainsworth and Bill Jackson, of Roadhouse, are the men who held up the fast express on the Chicago, Burlington & Quincy road, about a mile north of the depot here last night and killed Engineer Fred Dempsey. A sheriff's posse was immediately organized and the bloodhounds belonging to P. Brenzell, of this place were let loose. The dogs soon tracked Jackson to Roadhouse where he was arrested. Jackson told the whole story of the hold up. Ainsworth was arrested a few hours later. The train pulled out of the station about seven minutes late, and at the Chicago & Alton crossing was boarded by Ainsworth with a gun. He used the usual tactics, crawling over the tender and calling on the engineer to throw up his hands. Dempsey reversed his engine and threw on the air brakes. Ainsworth shot Dempsey in the body, who fell to the floor of his cab. The fireman escaped through the front window and the robbers fled.

### RIOTING IN GERMANY.

Election of Member to the Reichstag Resulted in Attack on Public Building—Many Wounded and Numerous Arrests Made.

Berlin, June 25.—A bulletin to the Frankfurt Zeitung from Heilbrunn, a town of Wurttemberg, 26 miles north of Stuttgart, says that a mob made a demonstration before the town hall yesterday against the election of Herr Hegelmeier to the reichstag. Troops with fixed bayonets attempted to clear the square in front of the hall, but the rioters continued the assault on the building until dispersed by the means of streams of water played on them by firemen's hose. Later the rioters recommenced their attack, but the military succeeded in gaining possession of the square, town hall and neighboring streets. Many who participated in the disorders were wounded and numerous arrests were made.

### RE-ENFORCEMENTS FOR CUBA.

General Copping's Force of 18,000 Men Will Go Next—General Miles Will Accompany the Expedition.

New York, June 25.—A special to the Tribune from Washington says: General Miles has made all arrangements to leave Washington at once for Tampa, to embark there as soon as possible with General Copping and the 4th army corps, consisting of about 18,000 men, for Santiago, that point being definitely announced as the chief outlying base of supplies for the subsequent military and naval operations against the enemy in the West Indies.

General Miles expressed the hope that General Shafter will have succeeded in taking possession of Santiago before he reaches there, but in case this achievement is delayed, the large army reinforcements will undoubtedly be able to effect a speedy termination of the siege, as well as to neutralize the heavy additional forces constituting the flower of the Spanish army in Cuba, consisting of 10,000 men under General Pando, known as their fighting general, now reported as hastening to the scene overland from Holguin, 70 miles distant in an air line. General Shafter has been directed by cable to get all supplies out of his transport ships as quickly as possible, and hasten them back to Tampa for General Copping's troops. Secretary Long sent orders at the same time to Admiral Sampson to furnish an effective convoy of warships for the expedition.

It is believed the big fleet can start on the return voyage not later than Sunday, reaching Tampa as early as Thursday morning.

### BLOCKADE RUNNER CAPTURED.

The Amapala Arrived at Key West in Charge of Prize Crew—Loaded With Refugees.

Key West, June 25.—A two masted vessel, the Amapala, of Trujillo, Honduras, was brought here this morning flying the American flag and in charge Ensign Zeen, of the Vicksburg. She was captured yesterday at sunset while leaving Havana and attempting to run the blockade. She had 30 women and children and a number of men on board, all refugees.

The Amapala belongs to Emanuel Montano Montes, of Trujillo, Honduras. Gerome Base, a French citizen chartered the vessel and got together over 40 people eager to escape from Havana. They fully expected to be captured; starvation stares the lower classes in the face, the well to do having lived in three months' stores. The stories regarding the relief through southern ports are denied. "Nothing has gone into Havana for over a month. Murder and robbery are daily occurrences, prompted by want and hunger."

This runs into the island at Santiago, crossing from Kingston, Jamaica, and belongs to an English company. For several weeks it has been known that this cable was in working order and the St. Louis has been trying desperately to cut it. In addition the cable steamer Mancel is to be assigned to the task and between the two it is hoped the cable will soon be cut.

### THE ALBUQUERQUE DITCH CASE.

Order Made by Judge McFie Yesterday—The Company Can Proceed With Construction of its Ditches—Question of Water Rights to Be Determined Hereafter.

In the case of the Albuquerque Land & Irrigation company against the Pueblos of Sandia and Santa Ana, dismissed yesterday, the said pueblos, as cross complainants, desired an injunction restraining the ditch company from constructing its ditch system across the lands of the pueblos. The attorneys appearing for the Albuquerque Land & Irrigation company were W. B. Childers, Esq., and Messrs. Collier & Marron, and for the defendants and cross complainants, Geo. Hill Howard, Esq. The following is the order as made by the court yesterday in the case:

"In the District court of the 1st judicial district, county of Santa Fe, territory of New Mexico. Albuquerque Land & Irrigation Co., vs. Pueblos of Sandia and Santa Ana, et al. No. 3967. Decree.

This cause coming on to be heard upon the original complaint, answer, cross-complaint, and the reply thereto, and upon the agreed statement of facts submitted by the parties, and the court having heard counsel for the respective parties, and being fully advised in the premises, finds:

That the preliminary survey which was obstructed by the said defendants has been fully completed, and all the relief prayed for in the original complaint has already been had.

And the court, upon the issues arising upon the cross-complaint, the answer thereto, and the reply thereto, and the plaintiff is regularly incorporated, and authorized to exercise the right of eminent domain for the purpose of constructing the ditch referred to in the pleadings in this cause, and second, that the said plaintiff is entitled as a matter of law to construct said ditch, and to exercise the right of eminent domain by going upon the lands of the said defendants in compliance with the statute, and appropriating so much of said lands as may be necessary for the construction of said ditch.

The court further finds that the cross-complaints are not entitled to the relief prayed for in and their cross-complaint filed in this cause, that in accordance with the stipulation and agreed statement of facts filed herein, the said cross-complaints are entitled to their rights as prior appropriators of water in said stream, and the same are not to be adjudicated or affected by this decree.

The court further finds that the rights of said cross-complaints as such prior appropriators are not and cannot be affected in any way by the construction of said ditch, and that the decree rendered in this cause is subject to such rights as the said cross-complaints have to the use of the water in said stream as such prior appropriators, and for the purpose of protecting said rights said cross-complaints are not now entitled to an injunction.

The court, having fully considered the issues arising upon the pleadings and the agreed statement of facts hereinbefore referred to:

Both order, adjudge and decree that the said original complaint, and the cross-complaint, be and the same are hereby dismissed, and that the said complainant have and recover its costs in its behalf expended, to be taxed, and execution issue therefor. An appeal to the Supreme court of the territory on the prayer of said cross-complaints is hereby granted.

JOHN R. McFIE, Associate Justice of the Supreme Court of the Territory of New Mexico, and Judge of the First Judicial District Court thereof.

H. B. CARTWRIGHT & BRO.

San Juan is a picturesque Indian pueblo, situated about a mile from the Rio Grande depot. A great profusion of trees, flowers and other vegetation beautifies the locality and a more delightful spot could not be found for a day's outing.

Hon. Sam Eldred's park, or garden, is the chief attraction of the place, and it was thrown open to the pioneers, without reservation, except protection of flowers and fruit, which the place contains a liberal supply of. The vine entwined arbors, which afforded shade from the sun and left the occupants to the full enjoyment of the cool mountain breezes and beautiful scenery, were immediately taken possession of by the visitors.

Numbers of Santa Feans took their visiting cards along and made social calls. Ramos Archuleta, the governor, turned the keys of the city over and allowed the sightseers to "blow themselves" at the lemonade and pottery booths and manipulate their kodes to their hearts' content. Mr. Lankard, who had a desire to know all about everything, asked an Indian maiden of antediluvian birth, how old she was. She replied, "Sweet Sixteen." The squaw was minus teeth and sight and her hair was as white as snow. She afterward told a crowd that the "fat man tried to make love to her."

St. John's and Nuestra Senora de Lourdes churches came in for considerable attention. The latter named edifice is an imposing stone structure that would be a credit to any city. A gilded statue of the Virgin Mary is inclosed between the two churches, which face one another on either side of the street.

Sector Ortiz, brother-in-law of the governor, at one time attended school in Santa Fe. He talks English fluently and was very obliging to the visitors. General Agent Helm is to be highly complimented on the able manner in which he handled the crowd. He seemed to be everywhere at once, looking to the comfort of the passengers and extending all manner of courtesies. The Rio Grande railway is exceedingly fortunate in possessing a representative here capable of exercising so much tact and bustling powers. The magnitude of the crowd attests Mr. Helm's unbounded popularity and the complete satisfaction of all is great praise to his efforts.
